DETAILED ACTION

Allowable Subject Matter

1. Claims 14-16, 18-31, 33-34 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 14, the prior art of the record (Kita et al. (US 6,961,139) in view of Moriyama et al. (US 6,646,756), and further in view of Onodera (US 6,181,435)) fails to show the image forming device comprising: printing speed determining means for predicting compressed data volume based on an entropy of the image data generated by the image data generation means and selecting one of the printing speed among the plurality of different printing speed based on the predicted compressed data volume, wherein the Entropy of image data used herein is defined as follows (Specification on page 30, lines 19-25 and page 31, lines 1-5).

If the probability of appearance of a pixel with a given gradation level "i" is P_i , the amount of information "I" on the pixel is expressed by the formula below.

$$I = \log_2 (1/P_i) = -\log_2 (P_i) \text{ bits}$$

If the total number of pixels in image data is "N" and the number of pixels with the gradation level "i" is " N_i ", the following equation is available:

$$P_i = N_i / N.$$

Therefore, the entropy (average quantity of information) "H" of the image data is expressed by the formula below.

$$H = -E\pi \log_2(\pi)$$

Regarding claims 15-16, 18-31, 34, claims 15-16, 18-31, 34 are allowable due to dependence from the respective base claim 14.

Regarding claim 33, claim 33 is a method claim of device claim 14. Therefore, claim 33 is allowable with the reason given in claim 14.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Allen H. Nguyen whose telephone number is (571)270-1229. The examiner can normally be reached on 9:00 AM-6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, KING Y. POON can be reached on (571) 272-7440. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
